CIRRICULUM TIE-IN

Escape Rooms help develop 4 out of the 7 general capabilities outlined by the Australian Curriculum!

CREATIVE AND CRITICAL THINKING

Escape rooms require students to work together in groups to solve problems and puzzles.

Exploring the room for clues generates inquiry and reflection. They will then have to analyse, synthesis, and evaluate to generate ideas to solve the puzzles and complete their mission!

PERSONAL AND SOCIAL CAPABILITY

Great escapes require collaboration, communication and teamwork in a fun (and sometimes competitive) environment!

Social management, social awareness, self-management and self-awareness are required for a record escape!

LITERACY

The puzzles in our escape rooms challenge word and visual comprehension.

Whether it be deciphering clues or solving riddles, they will need to use their word knowledge, grammar, text, and visual knowledge to escape the room!

NUMERACY

Many escape room puzzles require numerical skills!

Solving equations, recognising patterns, spatial reasoning, and interpreting statistic information will be key to their escape!
