WHAT IS ESCAPE HUNTING?

DEFINTION - The act of leaving humdrum everyday life behind for a period of intense excitement, during which you and your teammates attempt to follow a series of fiendishly clever clues to unravel an adventure and solve the mission.

Teams are set a mission and must explore the game to solve riddles and puzzles that take them on an adventure

All games are time bound. Teams work against the clock to achieve the mission in (record) time

There is no strenuous physical activity involved. All you need is a healthy, working brain

Players need to be observant and use communication and critical thinking skills to solve challenges and riddles
