Step on board a doomed spaceship, where a rogue Dalek has tapped into the power system, in an attempt to recharge its weapons. Should the Doctor's most feared enemy be successful, it will exterminate all in its path.

You the Doctor's friends, must prevent this catastrophe. Shutting down the ship's power core will ensure the Dalek cannot activate its weapons. However, the ship's life support systems rely on the same energy source, meaning that shutting down the power would result in the death of all 10,000 passengers.

You have just 60 minutes to find a way out of this impossible situation. You must defeat the Dalek to allow the spaceship to continue safely on its journey. Take too long and your destination will be extermination!
